

Cellometer® Mini

Cell Counter

➔ Affordable Automated Cell Counting

Introductory US price of \$1,998!

➔ “Wicked Fast” Results

Concentration and Viability in < 10 seconds!

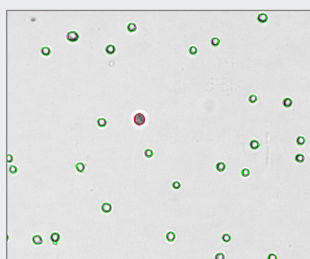

➔ Improved Accuracy vs. Manual Counting

Superior identification of live vs. dead cells, individual cells in clusters, and irregular-shaped cells

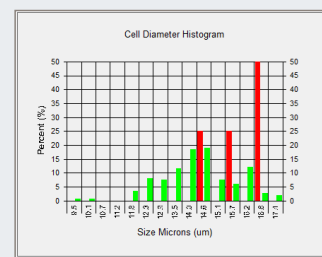

➔ Improved Precision vs. Manual Counting

- Eliminate manual counting and recording errors
- Reduce inter-operator variability
- Eliminate wash steps and potential cross-contamination

➔ View, Print, and Save Counted Images, Data Reports, and Cell Size Histograms

Results	
Assay: Cell line, viability trypan blue	
Sample ID: Cell Line	
Dilution Factor: 2.00	
Count	Concentration
Total: 155 cells	2.20x10 ⁶ cells/mL
Live: 148 cells	2.10x10 ⁶ cells/mL
Dead: 7 cells	9.92x10 ⁴ cells/mL
Viability: 95.5%
